**Office of Director-Improving Community Treatment Services - Section 9.025**

Bk. 1 Page 161

Justice Reinvestment is a data-driven approach to improve public safety and reinvest savings in strategies that can decrease crime and reduce recidivism. Improving Community Treatment Success Program (ICTS), formerly known as the Justice Reinvestment Treatment Pilot (JRITP), is a collaborative program that requires the DOC and the DMH to work together to lower system costs, decrease crime, and create a safer and healthier Missouri. ICTS is a coordinated-care approach that focuses the highest intensity substance addiction services on the highest risk/highest need people on probation or parole supervision. This particular program is the first of its kind in the state. The ICTS program is a “pay for performance” model where treatment provider performance geared toward positive impact on desired outcomes is incentivized in five outcome areas (retention in treatment, housing stability, employment stability, no substance use resulting in a sanction and no technical violations of supervision).

The Department of Corrections conducts random and targeted testing of offenders in prison and in the supervised community. This testing allows for early intervention when an offender experiences relapse. Testing is scheduled so that: Monthly, at least 10% of the inmate population is randomly tested for substance use through urinalysis. Monthly, at least 5% of the inmate population suspected of substance abuse based on staff observations, searches, or because they are assigned to work release programs outside institutions is target tested for substance use through urinalysis. Also note that: Random and targeted urinalysis testing is conducted monthly on offenders under community supervision. Drug testing requirements are included in federal grant applications and progress reports. Pre-employment, random and targeted testing of department employees is conducted to ensure the safety and security of offenders, the staff and the public.

Through a combination of state-operated programs, interagency agreements and outsourced services, the Department of Corrections provides qualified educators to conduct institution-based education and vocational programs for offenders. Incarcerated offenders without a verified high school diploma or High School Equivalency Certificate are required to enroll in academic education. The department continuously assesses the educational needs of offenders from their intake through their release to the community. Libraries at every correctional institution serve the informational and recreational needs of offenders, including constitutionally mandated "access to courts" through legal resources and reference materials. Offenders who have obtained a high school diploma or equivalent may apply for admission to post-secondary, work-related skills training.

Bk. 3 Page 605

This core request provides personal services funding for the Transition Center of St. Louis (TCSTL), previously known as the St. Louis Community Release Center (SLCRC), a 350 bed facility that provides housing and transitional programming to men released from the Division of Adult Institutions or those under community supervision in need of transitional services. Participation in available programming helps residents to balance the requirements of supervision with the responsibilities of living in the community. There are four phases to the program that includes assessment, intensive case management, reentry preparation, and programming tailored specifically to the offenders based on the assessment and treatment plan. Offenders continue to work in the community, are assigned a mentor and begin to transition back to the community after 90 days. The TCSTL has engaged with many community partners who have become part of the treatment team.

The Department of Corrections established a Command Center to provide timely responses to recover offenders who have absconded from community supervision while on electronic monitoring, in a residential facility, on Global Positioning System (GPS) tracking, in the Transitional Center of St. Louis, or who have escaped from the Division of Adult Institutions. In addition, this unit also monitors lifetime supervision offenders who are no longer on active supervision in the community. The 24-hours-a-day, 7-days-a-week operation enters warrants and initiates investigations as soon as notification is received that offenders have escaped or violated conditions of their community supervision.

Bk. 3 Page 651

This section contains funding for three community corrections programs; electronic monitoring, residential facilities, and automated low-risk offender supervision. All three programs are funded by the Inmate Revolving Fund, which is sustained primarily through Intervention Fees paid by offenders under supervision. Automated low-risk offender supervision is an FY 2022 new decision item request. Currently, Probation and Parole Officers' caseloads are a mix of high-risk, moderate-risk, and low-risk offender cases. The department is requesting appropriation authority to contract with a vendor for an automated supervision system for low-risk offenders on community supervision. The exact nature of the system will be determined through the state procurement process including a competitive bid.

Residential Facilities are contracted services, which provide transitional housing and programming to offenders who have no established home plans or are in need of additional structure to help ensure success on supervision. They provide offender assistance with obtaining employment, treatment and counseling services, life skills development, and transitioning back into the community. Beginning in FY24, the department intends to pursue contracted services for residential facilities through reentry contracts, offering services statewide.

Book 3 Page 641

The Electronic Monitoring Program (EMP) contracts for equipment and support services that enhance the supervising probation and parole officer's ability relative to monitoring, control and enforcement of offender movement, curfew restrictions, and alcohol consumption. This program aids reduction of recidivism by enabling more timely detection and response to violations for offenders who have been unresponsive or unsuccessful under traditional caseload supervision. In FY21, the division supervised an average of 1,229 offenders per day with electronic monitoring equipment.

**Board of Probation and Parole-Community Supervision Centers - Section 9.250**

Bk. 3 Page 663

As an alternative to constructing additional prisons to meet increases in prisoner population, the Department of Corrections (DOC) operates six Community Supervision Centers (CSCs) to reduce the prisoner growth rate by insuring that only chronic, violent and repeat offenders are incarcerated in our existing secure facilities. The CSCs provide a community-based, short-term intervention option to assess, stabilize and monitor offenders at risk for revocation in areas of the state that contribute significant numbers of annual prison admissions and revocations. Each center includes an administrative area to accommodate the existing Probation and Parole district offices located in that area, as well as sufficient program/classroom areas and dormitory housing space for 30-60 offenders in need of structured residential supervision.

**Inmate Canteen Fund - Section 9.270**

Bk. 3 Page 701

The purpose of the Inmate Canteen is to offer personal items for purchase, including writing supplies and stamps for access to courts and communication with families. The institutions provide basic necessities to offenders, including food, soap, toilet paper, clothing, and shoes. If an offender has any needs or wants beyond the basic necessities, he must first attempt to purchase the item through the canteen. Only if the canteen does not offer that particular item can he purchase it from an outside vendor. Items for sale in the canteen with a unit cost of \$1.00 or more are sold with a 20% markup. Items for sale in the canteen with a unit cost of \$.99 or less are sold with a 40% markup. Pursuant to section 217 .195 RSMo., the proceeds from the Inmate Canteen are to be deposited into the "Inmate Canteen Fund" for the use and benefit of the offenders in the improvement of recreational, religious, or educational services. FY2019 is the first year that the Inmate Canteen Fund has been moved into the State Treasury.
